

NATIVE AMERICAN CONNECTIONS

NAC Wish List

Native American Connections focuses on improving the lives of Native American individuals and families through culturally appropriate behavioral health, affordable housing, and community development services. Since 1972, the organization has been changing lives, strengthening families, and building healthy communities. First beginning as a small grassroots organization operating one program for Native American men in recovery from substance abuse, the organization has now grown to own and operate fifteen sites throughout Central Phoenix, offering a continuum of affordable housing and behavioral health services which touch the lives of over 5,000 individuals and families each year. For information visit www.nativeconnections.org
